Texas.

An arrival at New-Orleans brings accounts from Galveston to the 10th inst. The News of that date coutains the inaugural message of Gov. Wood. The docu ment is brief and alludes particularly to the public debt of Texas, and suggests the appointment of a commission to ascertain the entire amount. The Governor says:

"As to the amount amount. The Governor says:

"As to the amount we ought justly to pay upon each nominal species of debt, it will be for your collective wisdom to determine. After much reflection upon the subject. I have thought that the true measure of payment would be the market value of the several evidences of indebtedness at the time they were disposed of by our Treasury or the agents thereof, with interest thereon from that time at the rate named on the face of such evidences. It is believed the amount of our entire indebtedness, determined by this scale, will not perhaps exceed five millions of dollars."

THE ANNIVERSARY OF THE WELSH LIT-ERARY Association was celebrated on Monday night at

FACTS FOR THE PEOPLE.-A very interesting meeting of the Parent Washington T. B. Society was held day evening in Rev. Mr. Baker's Church, Fourth-st. The meeting was opened with prayer by Rev. Mr. Baker.

Mr. Burke cited several startling cases of drunk lierk of the House of Representatives. Several of the trongest minded men that figured during the administra-

our City, during the short space of six months, as sted from the books of the City Prison by Mr. Van

Two-thirds are set down as the result of drunkenness, state Prison offences 243—one-third rums. Various offences not received on indictment 153—one-fourth rum. Committed for examination 1,028, one-half of which were crunkards. There were brought into prison three hundred who were too drunk to tell their names. Beating wife and family 252—all drunkards. The number who were laboring under that terrible disease—the delivium treums—when trought into prison, were 163. Of the whole number during the six months there were 56 boys and about 30 ittle girls. 4,312 of the whole number were males, 2,784 females. During the six months 18 have died of delirium treums, the meet of whose lives could have been saved had there been a proper place for their reception—an Asylum for the Drunkard.

Mr. H. said it was estimated that there were about 10,000 profit liquor-shops in the City—nearly one-half are coing a largery business. Admitting each shop to receive

ones good than they had yet done were they supplied with means.

The Society meets at the corner of Benry and Cathaine sta, every Thursday evening. We hope our citizens will lend that aid which they require to prosecute their benevolent objects.

We can but believe that such meetings as the above—

void of everything of a denunciatory character—will d. much good. The undivided attention evinced by the sudience was sufficient proof that they were highly interested. FIRES .- A stable situated in the rear of 13 Perry

Dreught up and detained on suspicion of stealing \$25 from Jacob Benn.

A SLAVE'S CONFESSION OF MURDER.—A few days since the negro, Isaac Phillips, who was a fagitive from Justice from Lonislana, on the charge of murdering his master, Mr. Aloph Dean, of Lake Providence, was delivered up on a requisition, and taken from our jall, where he had been confined some time back, to the scene of his crime. While in Jall here he made two confessions or statements, both denying any participation in the murder of his master, both of which have been published. Since he left, I have received a copy of a third canfession, from the hands of Rev. Isaac Collins and Rev. Wm Evans, to whom he made it a few days be force his departure, requesting that it be withheld from the public until he was on his way home. Mr. Evans states, that after having home warned that he should abide faithfully by the truth in the confession he was about vonimarily and musought to make, he proceeded as follows:

"Confession—Dr. Duvall, of West River, Anne Arundel county, Md. from whom I ran away, sold me to Mr. Hope H. Slatter of Baltimore, on again obtaining pessession of me. Mr. Statter took me to New-Orleans and sold me to Mr. Dean, with whom I had for two years prior to his death. He was murdered, I think in September; he treated me very bailly; would stake me down to the ground and lash me sorely, and then pour salt water over me. Two or three times he threatened to kill me. A Mr. Hall, who has himself since been murdered, and who had a difficulty with my master, persuaded Lewis, a slave belonging to another man, and myself, to commit the crime, assuring us that he would enable us to make a successful scape.

"After about a week's deliberation, we came to the determination to do the deed. Mr. Hall stood outside, while we entered the shanty in which my master lived, and which two not fastered his and way. Alon burried it in the cancerake. Having been directed by Mr. Hall, I returned to the shanty and broke open his trunk, taking therefron two pieces
